

SunLink Ranked Fifth Fastest Growing Energy Tech Company in North America on Deloitte's 2016 Technology Fast 500™

Attributes 215 percent revenue growth to company's evolution into full-scope energy solutions

Mill Valley, Calif. – November 16, 2016 – [SunLink Corporation](#) today announced it ranked as the fifth fastest growing EnTech company on Deloitte's Technology Fast 500™, a ranking of the 500 fastest growing technology, media, telecommunications, life sciences and energy tech companies in North America. SunLink grew 215 percent during this period.

SunLink's chief executive officer, Michael Maulick, credits the company's evolution from respected engineering powerhouse to full-scope energy solutions company and the tireless commitment of the SunLink team with the company's triple-digit percent revenue growth. He said, "Companies with bold vision and solid execution are driving not just renewables but the entire energy sector to the next level. As this award and our growth underscores, SunLink is one of those propelling the energy industry forward. Like so many of our distinguished peers on this list, we've been able to accelerate faster and further ahead by stepping back, looking at the bigger picture and ignoring traditional barriers that have historically hindered our industry's momentum."

"Today, when every organization can be a tech company, the most effective businesses not only foster the courage to explore change, but also encourage creativity in using and applying existing assets in new ways, as resourcefully as possible," said Sandra Shirai, principal, Deloitte Consulting LLP and U.S. technology, media and telecommunications industry leader. "This ingenious approach to innovation calls for the encouragement of curiosity and collaboration both within and outside the office walls."

"This year's Fast 500 winners showcase that when organizations are open to diverse perspectives and insights, they are able to create an environment for their employees and customers to see the possibilities and ingenious solutions that might lie ahead," added Jim Atwell, national managing partner of the emerging growth company practice, Deloitte & Touche LLP. "Entrepreneurial environments foster change and innovation within businesses, and we look forward to watching these companies continue to drive change across all sectors."

Overall, 2016 Technology Fast 500™ companies achieved revenue growth ranging from 121 percent to 66,661 percent from 2012 to 2015, with median growth of 290 percent.

About Deloitte's 2016 Technology Fast 500™

Deloitte's Technology Fast 500 provides a ranking of the fastest growing technology, media, telecommunications, life sciences and energy tech companies – both public and private – in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth from 2012 to 2015.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least \$50,000 USD, and current-year operating revenues of at least \$5 million USD. Additionally, companies must be in business for a minimum of four years and be headquartered within North America.

As used in this document, "Deloitte" means Deloitte LLP and its subsidiaries. Please see www.deloitte.com/us/about for a detailed description of the legal structure of Deloitte LLP and its subsidiaries. Certain services may not be available to attest clients under the rules and regulations of public accounting.

About SunLink

SunLink Corporation brings powerful solar energy solutions to market through innovative, highly engineered products, in-demand customer services and best-of-breed software that make solar PV electricity easier, safer, more reliable and less expensive to install. In addition to bringing to market well-designed products that are agile in their implementation, the company leverages unparalleled R&D, a legacy of more than a GW of successful projects, state-of-the-art engineering and creative problem solving to develop optimized, full-scope product+service+software solutions for roof and ground-mount solar projects of every size and complexity. It is this unique combination of trusted insights, products, services and EnTech convergence that helps solar developers and installers overcome obstacles and furthers the industry's shared mission of advancing universal solar power adoption.
